SAP Basis Administrator | SAP S/4HANA & SAP HANA Certified

PROFESSIONAL SUMMARY

Certified Junior SAP Basis Administrator seeking a first professional SAP Basis role. Strong foundation in SAP S/4HANA and SAP HANA administration through certification, extensive hands-on lab practice, and a technical portfolio demonstrating SAP system administration, monitoring, troubleshooting, and documentation. Brings many years of experience working in structured, process-driven environments where accuracy, compliance, and reliability are essential. Eager to contribute, continue learning, and grow within a professional SAP Basis team.

CORE COMPETENCIES

SAP Basis	SAP HANA	Monitoring & Administration	Operating Systems
SAP ECC	SAP HANA Studio	ST22	Linux (Basic)
SAP S/4HANA	Backup & Restore	SM21	Windows
User Administration (SU01)	sapcontrol	ST06	
Role Administration (PFCG)	hdbadm	STMS	
SU10		Troubleshooting	

SAP LABORATORY EXPERIENCE

Hands-on SAP Basis Practice | 2023 – Present

Developed practical SAP Basis administration skills through structured laboratory environments, technical exercises, certification labs and personal portfolio projects.

Activities

- SAP ECC & SAP S/4HANA administration exercises
- SAP HANA administration and Backup & Restore
- User and role administration (SU01, SU10, PFCG)
- Transport management using STMS
- System monitoring using ST22, SM21 and ST06
- Basic Linux administration
- Troubleshooting and technical documentation

SAP PORTFOLIO

Practical SAP Basis projects completed in a training environment and documented on my portfolio website.

- SAP HANA Health Check
- SAP System Monitoring
- SAP User & Role Administration
- SAP Transport Management
- SAP Backup & Restore
- SAP Log Analysis
- SAP Troubleshooting & Documentation
